# Vision, Mission, & Philosophy Statements

## **Kenai Central High School Vision Statement**

Kenai Central High School is a learning community where we expect success and nothing less.

## **Kenai Central High School Mission Statement**

Kenai Central High School provides all students with a comprehensive system of support in a positive environment where they will develop skills to become productive citizens in a global community.

## **Kenai Central High School Statement of Philosophy**

The faculty of Kenai Central High School believes that public education in Kenai must do its best to meet the needs of the whole student. We believe that the teachers and administrators must work together with parents and community members to meet this goal.

The staff recognizes the importance of creating a positive learning environment in which each student will be able to succeed to the best of his or her ability.

It is our goal as professional educators to see that our students develop strong skills to become responsible, functional, productive citizens. It is also our goal to provide students with opportunities to cultivate independent thought and to develop respect for themselves, for others, and for the world.

- To provide programs which meet the needs of the whole student.
  - To provide programs which will encourage educational growth.
  - To provide the opportunity to involve parents and community in the total school program and to elicit their support.
  - To provide opportunities for students to develop strong learning skills and the ability to think critically, logically, and creatively in problem-solving situations.
  - To provide opportunities for students to develop strong citizenship skills, to become aware of the complexities of society, and to contribute to and function within it.
  - To provide opportunities for students to develop ethical behavioral patterns, positive interpersonal competencies, and sensitivities to individual differences.
  - To provide opportunities for students to learn skills and attitudes for responsible use of leisure and recreational time which will result in lifestyles promoting good physical and mental health.
  - To provide experiences which foster the growth and development of the whole student through co-curricular activities.
  - To provide students opportunities to adapt to changing technology.
-
